

The Affordable Housing Partnership for the West of England

The West of England (WoE) is the area covered by the unitary authorities (UAs) of Bath & North East Somerset, Bristol City, North Somerset and South Gloucestershire.

HomesWest is a partnership that has been established to deliver new affordable homes across the WoE.

Registered Provider (RP) partners will work at the WoE level to support increased delivery, engage in regional debate, support housing and planning policy development and develop best practice. Partners will also work at a UA level, to meet local affordable housing priorities.

HomesWest Partners have agreed to work together to:

- Increase the supply of good quality, sustainable, affordable homes in the West of England.
- Explore new and innovative routes to the delivery and funding of affordable homes.
- Maximise the benefits of delivering affordable housing to support wider corporate and organisational priorities.
- Engage in initiatives at both strategic and local levels to support housing-related policy development and affordable housing delivery.
- Target the use of funding to meet priority housing needs.
- Share best practice and seek excellence in strategic partnership working.

HomesWest South Gloucestershire

HomesWest South Glos is the local tier of the HomesWest partnership and is open to any members of HomesWest wishing to deliver new affordable homes in South Gloucestershire.

South Gloucestershire Council's Core Strategy 2006-2027 addresses the challenge of ensuring that planned growth supports the Council's commitment to sustainable communities and meeting housing need. The Council is working on a new Local Plan that will include a new strategy and policies to guide and manage growth and change in our area over the next 15 years.

The South Gloucestershire Housing Strategy 2023 sets out our vision for housing in South Gloucestershire. It is a high-level, strategic document setting out the council's ideals and aspirations for housing in South Gloucestershire over the longer term.

The strategy has 3 main aims;

- a home for everyone that meets their needs
- sustainable homes
- thriving communities and neighbourhoods

The strategy helps us work with partner organisations including RPs.

Our HomesWest South Gloucestershire Partners will:

- deliver the Local Plan affordable housing projected completions
- maximise opportunities to pull in other funding
- deliver mixed tenure ExtraCare Housing to meet targets
- deliver rural S106 and exception sites
- be prepared to engage with self and custom build and other specialist delivery programmes
- be prepared to explore RP-led development for both affordable and market homes (where these directly support the delivery of additional affordable homes)
- be prepared to seek opportunities and explore the delivery of additional affordable housing both on S106 sites and through other opportunities

HomesWest is made up of both smaller, specialist and local RPs alongside larger, national or regional organisations.
