

Council Plan 2020 to 2024

Our plan about the main things we will work on from 2020 to 2024

About this plan

We are South Gloucestershire Council.

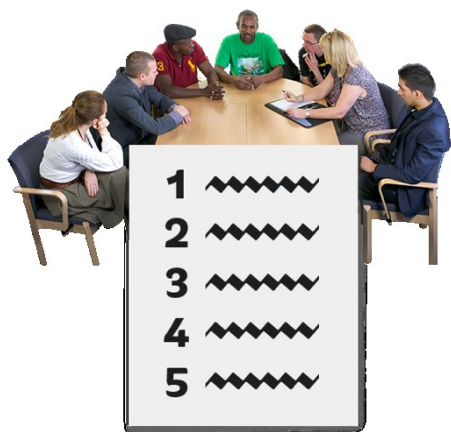

This plan is about the main things we will work on from 2020 to 2024.

South Gloucestershire is already a great place to live, work and visit.

We want to make South Gloucestershire even better for everyone.

This plan is about the people of South Gloucestershire and what they think is important.

There are 4 main things we will work on.

People in South Gloucestershire helped us choose the 4 things.

People said there are some important things we need to work on like:

- Making South Gloucestershire fairer for everyone

This is so everyone has the same chance to do well

- Making sure people who need more support get the right support

- Helping to stop climate change.

Climate change is about the earth getting warmer.

This is causing big problems for people and the earth we live on

We also need to think about:

- What needs to happen because of Covid-19.

This is a new illness that many people in the world have

- Making the future better after Covid-19.

For example, with jobs, education, housing and transport

- Making sure all groups of people can have a say in what happens in South Gloucestershire

This is our final plan.

We asked lots of people what they thought of our ideas first.

We will keep checking the plan.

We will change it if we need to.

The 4 main things we will work on

We will work with many other people to make these things happen.

Making sure our children and young people have the best start in life

What we will work on:

1. We will help all children do better at school.

2. We will make sure children and young people get the right support when they are young.

3. We will work to stop children in South Gloucestershire being poor.

4. We will help all children and young people to feel happy and well.

5. We will support children with a learning difficulty to do the best they can and live the way they want.

6. We will do our best for children and young people in care.

They are children and young people who are looked after by the council.

We will support them while they are in care. And after they leave care.

2

Finding out who needs most support

Making sure they get the right support

And helping people to help themselves

What we will work on:

7. We will make sure people can get the best information and advice to support them and their families.

8. We will give people more support to stop problems happening to them in the first place.

Like big health problems.

9. We will help people who need more support to live how they want and do more on their own.

For example, older people and people with a learning difficulty.

10. We will help people in local areas to work together.

This will help them to solve problems and make their lives better.

11. We will make sure that people get the right support.

This means when they get care from us, at home or in their local areas.

And we will help them feel safe.

3

Making local areas work well for everyone now and in the future

What we will work on:

12. We will clean streets well and make sure roads are safe.

13. We will do what we said to help stop climate change.

Climate change is problems with the earth getting warmer.

14. We will make sure local areas are clean and work well for everyone.

For example, with good schools and houses that people can afford.

15. We will make it easier for people to get to places from home.

Like schools and health centres.

For example, we will make it easier to cycle, walk and get around by transport.

16. We will help all different people and businesses get on together and do well.

4

**Helping everyone to work
in the best way they can**

**And making sure we spend
our money in the best way**

What we will work on:

17. We will show how we are
spending money in the best way
with the services we give people.

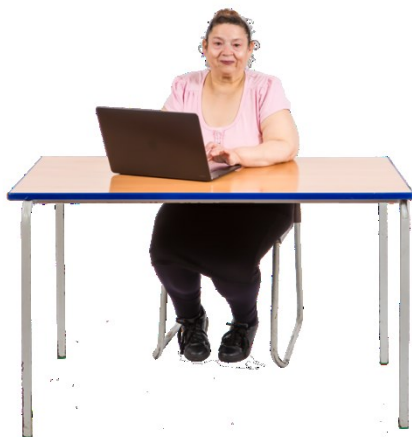

18. We will work to get more money
for council services.

We will use our money and things
in the best way for people in
South Gloucestershire.

19. We will give our staff the right skills
and support to do the best they can.

And to support others to do the best
they can.

20. We will make it easier for people to get what they need from us on the internet.

This will help people in South Gloucestershire and our staff.
