

Annual Report 2020/21

Area Wide Grant (AWG)

Member Awarded Funding (MAF)

VE Day 75

Foreword

As the appointed Executive Member for Public Health and Equality of Opportunity, and as the portfolio holder for Grants, I am pleased to be writing my first foreword for the combined annual report for the Area Wide Grant (AWG) and Member Awarded Funding (MAF) schemes for 2020/2021. This report also includes the VE Day one off investment to support community celebrations for the 75th anniversary of VE Day. We are dedicated to empowering our communities and through the availability of the aforementioned schemes, this can be demonstrated.

Over the years more than 1,000 local initiatives have been provided for. Projects are varied. It is this innovative approach to supporting our local communities and residents that is inspirational to me and has been illustrated by the sector's positive response to the pandemic. Many organisations diversified from usual service delivery to meet the imposed demands of the pandemic on our communities and residents. In support of this the MAF process was revised to enable applications to be received from Mutual Aid Groups giving quick access to funding.

Not only does this annual report provide an account of the grant expenditure, it also demonstrates that the schemes are compliant with the original resolution and that the Council's constitution and legal obligations are upheld, including those under the Transparency Code 2015.

To conclude, I hope this annual report is enlightening and persuasive to you to apply to one of our existing schemes or the new Platinum Jubilee Grant opening in Autumn 2021 the results of which will be included in the next report.

Signed:

Cllr Franklin Owusu-Antwi, December 2021
Executive Member for Public Health and Equality of Opportunity

Background

1 The Area Wide Grant (AWG) scheme specifically supports projects providing benefits across a significantly wider geographic area than Member Awarded Funding (MAF) which enables Members to support organisations in their local ward area. The purpose of the VE Day Grant (VE) was to support commemorative events being held in South Gloucestershire during the 75th Anniversary of VE Day; Friday 8 to Sunday 10 May 2020).

2 Town and Parish councils (TPC), and voluntary, community and social enterprise (VCSE) organisations are eligible to apply for these schemes. In support of this, a number of basic principles have been agreed for the [AWG](#) and [MAF](#) schemes to provide a transparent, accountable, consistent and legal process to be adhered to.

3 Requirements for the VE aligned to existing policies and procedures. A specific prerequisite was for applicants to confirm that appropriate licences, notices and insurances would be in place. These ranged from Street Closure Orders to Temporary Event Notices. In line with the Council's policy, the fee for street closures was waived as this was an event of national significance.

4 The Council Plan 2016/2020 was applicable over the course of the year and has been featured accordingly.

5 As previously agreed, AWG budget was £70,000, MAF budget £183,000 and at the Council meeting in February 2020, a one-off VE amount of £30,000 was allocated. Taking this investment into account, the total grant budget was £283,000 for the year and 85% was awarded (*All figures in this report are rounded to the nearest £*).

6 At financial year end (March 2021), a one-off decision was taken to carry forward £37,442 of the Member Awarded Funding (MAF) scheme. This took into consideration the prevailing national health restrictions that severely limited the ability of the sector to function and to engage with the grant scheme.

Analysis of Grant funding

7 The AWG budget of £70,000 was applied over two funding rounds in 2020/2021, as originally determined and in accordance with the principles of the scheme.

- 32 AWG applications were received
- 31 AWG awards were made
- 100% of the AWG budget was committed
- 39% of successful applications supported residents from our protected characteristic communities
- 89% of the awards were made to VCSE organisations
- AWG supported projects with total project costs of £82,814
- AWG awards met 84% of the amount requested by applicants.

8 MAF data was assessed in accordance with the available amount £183,000.

Key findings for the year included:

- 119 MAF applications were received
- 117 MAF applications were successful

- 99 VCSE, 14 TPC and 4 additional public service projects were supported
 - 80% of the MAF budget was committed
 - 82% of the awards were made to VCSE organisations; 14% to T/PC and 4% to public services
 - MAF supported projects totalling a value of £177,380 and awards met 82% of the amount requested
 - The largest award to a single project was £9,228 towards the Mission Costs of Great Western Air Ambulance, which was the Chair's Charity 2020/21.
- 9 VE data was analysed to correspond with the one-off investment of £30,000; findings included:
- 30 applications were received
 - 26 applications were from VCSE organisations and 4 from TPC
 - Amounts requested ranged from £89 to £5,430
 - 99% of the VE budget was committed.
- 10 Funding was requested for items such as publicity, vintage decorations, refreshments, insurance, venue hire, and entertainment costs such as vintage bands and choirs.
- 11 The impact of the COVID-19 health emergency resulted in many events being cancelled or postponed. The Council upheld its award commitment and applicants were advised that the funds could be used for re-arranged events.
- 12 A number of organisations applied to the AWG, MAF and VE Day programmes on more than one occasion, for different or the same projects.
- 1 organisation applied to all three
 - 9 organisations applied to both the MAF and AWG schemes
 - 5 received MAF and AWG awards for the same project
 - 3 received MAF and AWG for different projects
 - 1 was re-directed from AWG to MAF
 - 4 received MAF and AWG
 - 12 organisations, including 3 TPC, received MAF awards for more than one project
 - 2 organisations received AWG awards for more than one project
 - 3 organisations received MAF and VE grants for different projects,
 - 1 organisation received AWG and VE for different projects
 - 1 applicant applied for different projects to all three funding streams
- 13 Total project costs were stated as £1,308,159 (AWG, £430,502, MAF, £819,129 and VE Day £58,528) which implies that for every £1 council investment, an additional £5 was generated from other sources.

Supporting the Council Plan 2016/20

- 14 The Council Plan 2016/20 outlines the Council's priorities which underpin the direction of the Council. Strategic outcomes are set out under the headings People, Place and Resources.

- 15 Combining the grant awards from both schemes for 2020/21, applicant organisations provided projects and services to their local communities which directly contribute to, and invest into, the Council's priorities as shown below:
 - People, £142,638; relative investment value 56%
 - Place, £96,827; relative investment value 38%
 - Resources, £13,535; relative investment value 5%
- 16 *Health and Wellbeing* received grant investment of £39,520. This category covers a varied range of applications including sports clubs improving their facilities to encourage healthy lifestyles, wellbeing projects and projects to reduce isolation, including community transport.
- 17 *Parks and open spaces* projects were awarded £36,897. The majority of funding in this category supported improvements to parks and open spaces. Conservation and biodiversity projects were also supported through this strand.
- 18 *Enhancing the built environment* applications received grant investment of £29,961, the most common being improvements to village halls and community centres which benefit all users.
- 19 Analysis of projects by category demonstrated that projects supporting *Children and young people* received investment of £26,299. Applications included projects for youth groups activities, or to improve facilities or outdoor spaces specifically for children and young people.
- 20 *COVID specific project* applications were awarded £23,529. The funding in this category supported a range of projects from foodbanks to leaflet printing, as well as the provision of hand sanitisers and local community support.
- 21 *Projects for disabled people* received £17,156. The majority of applications in this category were from Mutual Aid groups to help to improve facilities for residents in residential care settings.
- 22 Applications for *Community safety projects* were awarded £16,302. Improvements were made to CCTV and security fencing. An electric police bicycle was provided as well as a community defibrillator.
- 23 *Events, heritage and arts projects* received £10,195. MAF supported events across South Gloucestershire including provision of a mobile library. All projects upheld the overarching aim to include residents in activities across South Gloucestershire.
- 24 *Advocacy and Advice*, £5,950; this category supported a range of projects covering topics such as debt advice, sustainability and voluntary sector support.
- 25 The remaining categories were awarded the following amounts:
 - Education and learning activities, £4,348.70
 - BAME Projects, £3,150
 - Projects for older people, £2,350

26 Further category analysis can be viewed in *Appendix 1* to this report.

Monitoring of awards made in 2019/20

27 Grants are monitored retrospectively. Therefore, the monitoring return rate is for 2019/20. For organisations receiving Area Wide Grants (AWG) it was 88% and for Member Awarded Funding (MAF) it was 79%. Further monitoring details can be viewed in *Appendix 2* to this report.

28 When organisations were asked to report if their projects had been completed within 12 months in accordance with the grant terms and conditions, 67% of AWG and 55% of MAF applicants answered positively. Analysis of the reasons for noncompletion within this time frame was heavily influenced by the fact that government health restrictions around Covid-19 precluded normal working practices for community management committees and volunteers, as well as preventing services and events going ahead as planned. However, all projects were followed up and extensions to funding terms and conditions were agreed as appropriate to ensure that the award was spent in full.

29 The value of volunteers in the voluntary, community and social enterprise sector (VCSE) is significant as organisations rely on volunteering hours to help run services and activities. A total of 1,628 volunteers participated in the provision of funded projects. Those organisations reporting not to have used volunteers for project delivery engaged professionals due to the nature of the work.

30 The approximate number of South Gloucestershire residents benefiting from funded services and activities in both schemes was 302,599, which equates to an investment by the Council of almost £0.83 per project beneficiary.

Equalities

31 The Grants service is committed to ensuring that it is operating fairly and equitably in all areas of delivery.

32 Equality monitoring is undertaken to ensure that the service is accessible and open to all organisations. Likewise, organisations are required to demonstrate in their application their commitment to the provision of equal opportunity in their project, and this is ratified by Members in their authorisation. A comprehensive list of awards supporting our protected characteristic communities can be viewed in *Appendix 3* to this report.

33 To ensure equality commitments are upheld, organisations are asked to complete an equalities survey. Questions are designed to ascertain if an organisation's primary function is to support individuals on the basis of their protected characteristic.

34 Organisations are also asked about the composition of their management committee and whether or not the majority identify with one or more of the nine protected characteristics to establish representation.

35 The Equalities table in *Appendix 2* to this report illustrates responses received. Applicants could select more than one characteristic, to take account of people with intersectional identities.

The Local Government Transparency Code

36 As part of South Gloucestershire Council's obligations under the Local Government Transparency Code 2015, all grant decisions and payments have been published since 2014. The data includes previous funds of Community Grants, Positive Activities Subsidy (PAS) and New Homes Bonus (NHB); and current schemes of Three Year Grants, Financial Inclusion Service (welfare benefit and debt advice), Member Awarded Funding (MAF) and Area Wide Grants (AWG). Payments can be viewed on the [Open Data webpage](#) accessible from the [MAF webpage](#).

Conclusion

37 The Council's grant programmes continue to benefit South Gloucestershire communities in a number of ways:

The MAF scheme has enabled Members to support organisations working in their local wards, to meet local community needs

The responsiveness of the scheme has allowed Members to see direct benefits to residents in their wards within a short timeframe

The grant schemes have highlighted the importance and extent of charitable and community work taking place in South Gloucestershire communities, making it a great place to live and work

The grant schemes have supported cross-party and interparty collaborations to pool funding to support projects requiring greater investment

Under the MAF scheme Members have adopted innovative processes to administer their funding within the set principles and processes of the programme which has enabled organisations to access funds when they need it

Organisations supporting communities with protected characteristics benefited from the AWG scheme ensuring that they were not excluded on the grounds of geographical area or protected characteristic

Grant funding has a positive impact on the Council's priorities.

Appendices

Appendix 1 Grants analysis 2020/21

Appendix 2 Grants monitoring 2019/20

Appendix 3 Grant awards 2020/21

Grants Analysis 2020/21

Area Wide Grants (AWG)

- 1 In the following analysis comparisons are made between AWG 2020/21 and 2019/20.
- 2 A total of 32 applications was processed in 2020/21 requesting £82,814. One application was withdrawn before assessment stage. 29 applications were successful and 100% of the AWG budget of £70,000 was committed. This was a 25% lower application rate than 2019/20 when 43 applications received a total of £70,000.
- 3 In the first funding round, 9 applications were received; one was withdrawn and the total requested was £22,537. 8 projects were awarded funding and this totalled £19,624.00.
- 4 In the second funding round 23 applications were received requesting £60,276. 21 projects were awarded funding totalling £50,376.
- 5 The average request for AWG was £2,671 and the average award was £2,414 which equates to 90% of the average funding request. (In 2019/20, average request was £2,704 and the average award was £1,628 which equates to 60% of the average funding request. In 2018/19 the average request was £2,818 and the average award was £2,000; 70%).
- 6 Principle 3.2 provides guidance on the level of funding with the maximum level of award suggested as £3,000, with flexibility for both exceptional circumstances and budget availability. Of the 31 AWG applications, two requested over £3,000 but were only considered eligible for the maximum recommended AWG award due to budget considerations.
- 7 Twelve applications (39%) supported residents with protected characteristics. These included projects that supported children and young people with Special Educational Needs and Disability (SEND) and projects for older people with the aim of reducing loneliness and isolation.
- 8 The voluntary, community and social enterprise (VCSE) sector is more likely to receive an AWG award due to its ability to work across a wider geographic area than Town and Parish Councils (TPC) whose spend is restricted to the civil parish boundary. Four applications were received from three different Town and Parish Councils.

Member Awarded Funding (MAF)

- 9 In the following analysis, comparisons are made between 2020/21 and 2019/20 when the MAF budget was also £183,000 (in previous years it was £210,000).
- 10 A total of 119 MAF applications were received, requesting £177,380 (160 applications in 2019/20 requesting £234,179; 172 in 2018/19, requesting £300,869; 193 in 2017/18 and 2016/17 requesting £328,162 and £250,341 respectively).

- 11 The number of successful applications was 117. Two applications were withdrawn. None were unsuccessful, compared with five in 2019/20, three in 2018/19; four in 2017/18 and six in 2016/17.
- 12 Of the 117 projects that were awarded funding in 2020/21:
-  8 Town or Parish Councils (TPC) applied for 14 projects, which received £19,939
 -  85 voluntary, community and social enterprise (VCSE) organisations applied for 99 projects, which received £119,881
 -  4 applications were for additional levels of localised public sector services, which were awarded £5,838.
- 13 The average request for MAF was £1,490 and for the 117 awards made, the average award was £1,245 or 83% of the amount requested.
- 14 The average award value for the year was £1,245. This was more than in 2019/20 (£1,180) but less than 2018/19 (£1,272).
- 15 At year end an accrual of £10,817 was made so that grants could be paid once organisations had completed their online registration or met other funding conditions.
- 16 The number of awards to VCSE organisations fell to 99 due to the budget underspend (138 in 2019/2; 143 in 2018/19; 171 in 2017/18; 173 in 2016/17).
- 17 The number of projects delivered by TPC was 14 and awards totalled £19,939 (2019/20, £14,890; 2018/19, £19,800; 2017/18, £20,850; 2016/17, £13,535).
- 18 Four awards were made for additional levels of localised public sector services; value of awards was £5,838 (2019/20, £9,574; 2018/19, £6,025; 2017/18, £4,375).
- 19 During 2021, 4 projects benefitted from Members pooling their budgets to create awards over £3,000, the largest single award being £9,228.37 to Great Western Air Ambulance which was the Chair's Charity for the year. In the previous year, 8 projects received over £3,000 and the largest single award was £10,624.
- 20 Members can use MAF in a number of ways; the preference is for MAF to be used "as a non-recurring grant".

Supporting the Council Plan 2016/20

21 The majority of applications supported the Council's Strategic Priorities under People and the percentage distribution of funding was comparable to the previous year. It should be noted that organisations could select more than one Strategic Priority in their application.

Strategic Priorities	People	Place	Resources
Number of applications	137	93	13
Relative level of investment	£142,638 (56%)	£96,827 (38%)	£13,535 (5%)

22 Analysis of investment by project category showed that projects supporting Health and wellbeing received the greatest amount of funding (18%), followed by Parks, open spaces and conservation (17%), Enhancing the built environment (14%); and Children and Young People (12%). The table below shows the budget breakdown by category:

Categories	MAF £	AWG £	Total £	Projects		
				MAF	AWG	Total
Health and wellbeing projects	20,050	19,470	39,520	18	8	26
Parks, open spaces and conservation	24,167	12,730	36,897	16	5	21
Enhancing the built environment	15,964	13,997	29,961	13	5	18
Children and Young People	21,037	5,262	26,299	17	2	19
COVID specific projects	23,529	0	23,529	21	0	21
Projects for disabled people	6,850	10,306	17,156	8	5	13
Community safety projects	16,302	0	16,302	7	0	7
Events, Heritage and Arts projects	5,860	4,335	10,195	8	2	10
Advocacy and Advice	3,950	2,000	5,950	3	1	4
Education and learning activities	4,349	0	43,49	4	0	4
BAME Projects	1,250	1,900	3,150	2	1	3
Projects for older people	2,350	0	2,350	2	0	2
Not funded	0	0	0	1	2	3
Total	14,658	70,000	215,658	120	31	151

23 Projects have been categorised to give an indication of how MAF and AWG funding has been allocated. However, it should be recognised that projects may benefit more than one category. For example, health and wellbeing projects may also support equalities groups, older people or those with disabilities.

Monitoring of awards made in 2019/20

1 In accordance with the principles determined by the Communities Committee, projects and services supported by Area Wide Grants (AWG) and Member Awarded Funding (MAF) are monitored on an annual basis and results are documented retrospectively in this annual report.

2019/20 Monitoring survey	AWG projects x43	MAF projects x160
Completion rate of monitoring surveys by applicant organisations	88%	79%
Projects completed as planned	65%	57%
Projects that were completed within 12 months	67%	55%
Projects that spent the full amount as planned	67%	63%
Number of volunteers involved with the projects	401	1227
Number of South Gloucestershire beneficiaries	81,708	220,891

Equalities

2 To ensure equality commitments are upheld, organisations are asked to complete an equality survey. Questions are designed to ascertain if an organisation's primary function is to support individuals on the basis of their protected characteristic. The table below illustrates responses received. Applicants could select more than one characteristic. The results show that 62% of funded organisations have 'No specific organisational objectives regarding protected characteristics'. After that the most often ticked characteristics are Age and Disability.

Protected characteristic	AWG responses		MAF responses	
	Number	%	Number	%
Age	12	32.0	25	19.5
Disability	12	32.0	18	14.0
Gender reassignment	0	0.0	0	0.0
Marriage and civil partnership	0	0.0	1	0.8
Pregnancy or maternity	1	3.0	2	1.6
Race	5	13.0	3	2.3
Religion or belief	1	3.0	9	7.0
Sex	1	3.0	2	1.6
Sexual orientation	0	0.0	0	0.0

No specific organisational objectives regarding protected characteristics	20	53.0	83	65.0
---	----	------	----	------

3 As part of the equality survey, organisations were asked about the composition of their management committee, and whether or not the majority identify with one of the nine protected characteristics. The results show that 52% have 'No specific organisational objectives regarding protected characteristics'.

Management committee by protected characteristic	AWG responses		MAF responses	
	Number	%	Number	%
Age	9	24.0	20	16.1
Disability	9	24.0	8	6.5
Gender reassignment	0	0.0	0	0.0
Marriage and civil partnership	0	0.0	2	1.6
Pregnancy or maternity	0	0.0	1	0.8
Race	3	8.0	1	0.8
Religion or belief	0	0.0	12	9.7
Sex	0	0.0	3	2.4
Sexual orientation	0	0.0	0	0.0
No specific organisational objectives regarding protected characteristics	21	55.0	63	51.0

Appendix 3

Grant awards 2020/21

Organisations that received Area Wide Grants (AWG), Member Awarded Funding (MAF) and VE Day 75 grants in 2020/21 are listed below in alphabetical order by organisation. For information on payments to organisations please view the transparency code data on the [Open Data webpage](#) accessible from the [MAF webpage](#) and [AWG webpage](#). Awards made are rounded to the nearest £

Key to Status:

TPC Town or Parish council

VCSE Voluntary, community or social enterprise organisation

PS Public sector

Avon Valley Railway Trust	Railway Shop COVID Compliant Project	2,700.00	AWG	VCSE
Banjo Island Community and Sports Centre (BICSA)	Keep the Home Fires Burning, Warmley	1,525.00	VE	VCSE
Biodiversity Action Group	DNA Finger printing of Veteran Apple and Pear trees in South Gloucestershire	1,830.00	AWG	VCSE
