## Introduction

The templates below show the sites that feature in our alternative Lens 1 No Green Belt Loss. Please refer back to [Section 6c Lens 3 Transport Corridors and Hubs](#). You can comment by clicking [here](#) to view the sites on our interactive map, or by clicking on any of the map links set out in the information below. The sites are set out in parish order.

This Transport Corridors and Hubs lens is not the final strategy. The sites we are showing and consulting with you on below are those we have explored through this lens. Further consultation and information is required to determine the most appropriate strategy to deliver homes, jobs and change in our new Local Plan. In technical planning speak at this point this strategy lens and potential site allocations carry very limited planning weight in the determination of planning applications and do not form the new adopted strategy for our Local Plan.

The sites, designations and information shown below form part of our Phase 3 (Regulation 18) consultation, are not 'adopted' and carry limited weight in determination of any planning application until the new Local Plan is adopted.
