

Advice on car sharing

You should not be car sharing with anyone who is not in your household or your support bubble. If you absolutely have to car share, make sure you follow these steps:

keep apart as much as possible

wear face coverings

keep windows open

limit the number of people in the vehicle

wash your hands before and after

clean the vehicle after every journey
(particularly door handles)

Do not share a vehicle with anyone who has coronavirus symptoms.

Stop the spread.

Do the right thing.
