Appendix 2: Residential Land Availability Survey - Schedule of Sites April 2010	10

1 Introduction

- 1.1 The Residential Land Availability Survey (RLAS) details sites that are potentially available for housing development under current planning policies.
- 1.2 Government guidance outlines both the importance of maintaining an adequate supply of land and buildings for housing, and of keeping the situation under regular review. The RLAS forms an essential part of this process and the information it contains helps to monitor and improve planning policies at both the local and regional levels. This is done in accordance with current best practice and the principles of sustainable development.
- 1.3 At the end of 2010, we shall also publish our sixth Annual Monitoring Report, which monitors the performance of the Council's development planning policies and covers a wide range of land use and related issues, including housing.
- 1.4 Much of the information in this April 2010 RLAS updates previous annual reports. The RLAS contains details of site densities, type of units, number of affordable units, parking provision, and whether the housing development occurs on previously developed ("brownfield") land. Although capacity totals given for each site are shown as gross figures, information contained in the Notes makes specific reference to any demolitions etc., and gives the resulting net capacity where appropriate.
- 1.5 The information contained in this document is derived from Development Services records, site surveys and other Council records. South Gloucestershire Council has made every effort to ensure the accuracy of the information, but neither the Council nor its officers can accept any responsibility for any errors or omissions.

2 Coverage of the Residential Land Availability Survey

- 2.1 The survey covers "large" sites that have been identified for residential use as a result of either:
 - the Council granting detailed or outline planning consent; or
 - a resolution to approve subject to completion of a Section 106 agreement; or
 - a successful planning appeal.

A large site is one that can accommodate 10 or more dwellings or has a site area equal to or greater than 0.5 hectares.
- 2.2 The RLAS sets out information for the following 4 categories of land:
 - **Category A Sites** - with planning permission, including details of dwellings under construction or completed.
 - **Category B Sites** - without planning permission, including sites allocated in the South Gloucestershire Local Plan, those subject to a S.106 Agreement or with a lapsed permission.
 - **Category W Sites** - those withdrawn since April 2009.
 - **Category X Sites** - those that have been completely finished since April 2009.

Category A: Sites With Planning Permission.

These include sites with outline, detailed, and/or reserved matters permission at 1st April 2010. The dwelling capacities of land with outline planning permission have in general been estimated after making appropriate allowance for ancillary uses such as open space, roads, school sites etc.

The total dwelling capacity of the site is shown, as is the stage of development on sites with detailed or reserved matters planning permission. The sum of the rows "NS" (Not Started) and "UC" (Under Construction), give the total dwellings to be completed. Generally, different sections on a large site are identified separately. The schedule provides one planning application number under the "TYPE OF PERMISSION" column. Where subsequent revisions to site capacities or layouts are made the new planning application numbers and respective details are shown in the "NOTES" section.

Category B: Sites Without Planning Permission

These include estimates of the number of dwellings that could be constructed on land which at 1st April 2010 was not granted planning permission, but which has been identified for residential development either through a Committee resolution to grant planning permission subject to the completion of a Section 106 Agreement, or an allocation in the South Gloucestershire Local Plan. Sites where a previous planning permission has lapsed but where permission could normally be expected to be renewed have also been included in this category.

Category W: Sites Withdrawn

This category comprises those sites withdrawn since the survey in April 2009.

Category X: Sites Where Development Was Completed

This category comprises sites where development had been completed (fully "built out") between 1st April 2009 and 31st April 2010

3 Schedule Format

Site identification - Each site is given a RLAS site reference number, old reference numbers are also included for convenience. Single sites may be sub-divided, where they are subject to phasing of development. Where this is the case different parts of the site are identified using a letter suffix “a”, “b”, “c” etc or “aa”, “ab”, “ac” etc. National Land Use Database (NLUD) number is also included, if applicable. An Ordnance Survey grid reference is given as well as the site address, postcode and Ward. For convenience sites are listed in alphabetical Ward order.

Planning Status – The type of planning permission is shown together with the application reference number and permission date. (Note: More detailed site plans are normally available for inspection on the Council’s Web site at: www.southglos.gov.uk click-on “Planning applications” on the A to Z Index).

Site Size and Capacity – The area of the site is given in hectares, and the density is also shown. The dwelling capacity reflects the number of dwellings permitted or anticipated on the site, while “Not Started” (NS), “Under Construction” (UC) and “Completed” (Comp) shows the progress of construction.

Type of Units – Details of house types and bedroom numbers are shown for those sites listed on the “A” Schedule.

Affordable Units - Where affordable homes are to be provided the numbers are given.

Parking Provision – Information is provided on numbers of parking spaces and the average number of spaces per house.

Previous Use – Information is set out confirming whether or not the site was previously developed and gives a brief description of that use. The definition used follows that set out in PPS3, Annex B.

Builder/Developer and Notes – This section provides details of the owner/applicant/developer name together with any other relevant information.

4 New Housing Completions and Future Housing Development

- 4.1 Over the period April 2006 to March 2010 3,350 (net) new dwellings were completed in South Gloucestershire, 742 of which were completed in the 12 months to March 2010.
- 4.2 Table 1 sets out annual dwelling completions since 1989. The total number of new completions over that period is 25,045.

Table 1 Annual Dwelling Completions

Financial Year	Large Sites	Small Sites	Total
1989/90	1,908	142	2,050
1990/91	1,569	108	1,677
1991/92	1,868	115	1,983
1992/93	1,188	70	1,258
1993/94	1,139	79	1,218
1994/95	1,388	144	1,532
1995/96	1,146	141	1,287
1996/97	1,089	98	1,187
1997/98	1,415	95	1,510
1998/99	1,503	84	1,587
1999/00	1,318	138	1,456
2000/01	1,168	84	1,252
2001/02	715	111	826
2002/03	796	146	942
2003/04	551	197	748
2004/05	380	166	546
2005/06	424	212	636
2006/07	471	218	689
2007/08	657	346	1,003
2008/09	584	332	916
2009/10	475	267	742

Table 2 below shows recent new dwelling completions and current capacity.

Table 2 Completions/Supply

Completions 2006 - 2010	
Large sites	2,187
Small Sites	1,163
Total Completions	3,350
Supply Available 2010	
Capacity on Large Sites with Planning Permission (Including dwellings Under Construction) ("A" Sites)	4,473
Capacity on Other Committed Large Sites ("B" Sites)	4,846
Capacity on Small Sites with Planning Permission (Including dwellings Under Construction)	1,079
Total Supply	10,398
